### **REASONS FOR ALLOWANCE**

1. The after-final amendment, filed July 25, 2006 is entered.
2. Claims 1-9 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The reissue application was filed with a declaration identifying two errors (patentee claiming more or less than he had the right to claim in the patent and failure to claim priority to US provisional application 60/062,010) as the basis for the reissue application. During prosecution, all newly added claims were cancelled and the granted claims remain unamended. Even though one of the identified errors in the declaration has been found not to be an error (patentee did not claim more or less than he had the right to claim), the remaining error still supports this reissue application.

The priority claim to US provisional application 60/062,010 is proper because the US non-provisional application 09/084,698 was filed within one year of the filing of US provisional application 60/062,010 and the claims in 09/084,698 (and the present reissue claims) are supported by the written description of US provisional application 60/062,010. It is also noted that 09/084,698 was filed before November 29, 2000, so this reissue application remains a valid mechanism for adding a benefit claim under 35 USC 119(e).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
